

Wheel Transport

Wheels and tyres are heavy. Their handling may involve heavy lifting at the workshop.

We have developed a logical ergonomic method for transporting and storing wheels. The focus here is our popular Wheel Trolley by AHCON.

The workflow is made easier, and a lot of heavy lifting is avoided. Wheel Trolley by AHCON comes in different versions and quickly becomes indispensable equipment at the workshop.

With Wheel Trolley products you can:

**Transport tires the easy way
 Avoid heavy lifting of wheels
 Increase the efficiency of the technician
 Decrease injuries and promote safety
 Create a clever way of storing wheels**
